

Name _____ **12th Grade Schedule 2018-2019**

	Monday	Tuesday	Wednesday	Thursday	Friday
1st Hour; 8:14-9:00 am	Yearbook	Bible	Yearbook	X Chapel	Study Hall
	Sr. Practicum	Proclaimers	Study Hall		

2nd Hour; 9:04-9:59 am			AP Statistics		
			Finance		
			Chemistry		
			Study Hall		

3rd Hour; 10:03-10:58 am			AP English		
			English		
			Study Hall		

4th Hour; 11:02-11:57 am			Anatomy/Physiology		
			Calculus		
			Geometry		
			Spanish 1		
			Art		
		Study Hall			

Lunch Hour; 12:00-12:30 pm	X	Lunch			
-----------------------------------	---	--------------	--	--	--

5th Hour; 12:34-1:29 pm			AP Calculus		
			Biology 2		
			Forensic Science		
			Spanish 2		
			Study Hall		

6th Hour; 1:33-2:28 pm			Gov/ Economics		
			Study Hall		

7th Hour; 2:32- 3:15 pm	Drama	Art	Drama	Art	Drama
	Study Hall	Home Ec	Study Hall	Home Ec	Study Hall
		SH Choir		SH Choir	
		Study Hall		Study Hall	

				Office Use Only	
				Received	
				Processed	
				Total Credits	
				Total Study Halls

Parent Signature: _____ **Date:** _____

Parents, please email Kirsten Harris at kharris@cbs.edu with any questions

Return form to homeroom teacher or office by June 6th so that your schedule can be ready for the first day of school. Class times are subject to change before the beginning of the 2018-2019 school year.

Directions:

Boxes with X's indicate that the class is required. In the blank boxes, please choose one class per hour per day.

In order to graduate on time with sufficient credits: you must have a total of 4 math credits, 4 English credits, 4 History credits, and 3 science credits throughout high school. This means you must take one class in each category every year of high school with the exception of science which only requires 3 classes in high school. There are other credit requirements which can be filled by taking electives or special classes.

You may not have more than 8 study halls per week unless you plan to take dual enrollment classes during study hall periods

Dual Enrollment

You may fill any free/study hall hours with online dual enrollment classes which will give you high school credit and college credit. All dual enrollment requests should be listed on the course selection page in the hours you want to take them. The dual enrollment course would then need to be approved by Lesli Nichols the guidance counselor. More information can be found on the CBS website at www.cbschools.org or on Liberty University's website here: <https://www.liberty.edu/onlineacademy/dual-enrollment-courses/>

Notes:

Drama meets 3 times per week
 Home Ec meets 1 or 2 times per week (your choice)
 Art meets 1 or 2 times per week (your choice) if you choose it during 7th hour
 Choir meets 2 times per week
 Proclaimers will have a separate Bible class with Mr. DuBose on Tuesday mornings 1st hour before having Proclaimers practice.

Prerequisites:

AP English: B in 11th grade English
 AP Statistics: B in Trig/Pre-Calc, and must fill out Advanced Math Request
 AP Calculus: B in Trig/Pre-Calc, and must fill out Advanced Math Request
 Biology 2: B in Biology 1
 Drama: B in 9th Grade Speech or Teacher Approval
 Anatomy/Physiology: C in Biology 1
 Spanish 2: C in Spanish 1

AP & Honors Classes:

More information attached to Course Selection Sheet

An **AP (ADVANCED PLACEMENT)** class is a course designed to prepare students to take the College Board-sponsored Advanced Placement (AP) exam. These national curricula are developed by both high school and college teachers under the auspices of the College Board. Most universities award college credit based on AP exam scores. Students in AP classes will be challenged academically, will be exposed to advanced subject matter, can dramatically increase their GPA, and may also be better prepared to succeed in college. If AP courses are offered at a high school, many colleges expect serious candidates to enroll in AP courses. Since AP classes are more difficult than traditional courses, grades in these courses are weighted differently and can strengthen a student's chances for admission to college by boosting their GPA. With the standard four-point grading scale, A = 4 grade points, B = 3 grade points, C = 2 grade points, D = 1 grade point, and F = 0. The grades you earn in AP classes are given an extra 1.5 grade points, so A = 5.5, B = 4.5, C = 3.5 grade points. In order for students to enroll in an AP course, a student must have earned at least a "B" in the same subject area (Math, Science, History or English) in the preceding year. Students who do not meet the grade prerequisite can be considered based on the recommendation of their teacher. Some AP classes have work that is assigned to be done over the summer:

Summer Assignments:

AP Calculus and AP Statistics – a worksheet that is due the first Friday of school

AP English – Read *Death Be Not Proud* (a memoir) and write a 2 page paper.

The work is due the second week of school and is preparatory for a later assignment.

AP US History – Read and outline the first four chapters of textbook (The American Pageant) and complete several handouts that are due the first Friday of school

An **honors class** parallels the curriculum offered in the corresponding regular class, but will cover additional topics and some topics in greater depth. The work load of the honors class will be more strenuous than that of the traditional class. Students in honors classes will be more challenged academically, will be exposed to advanced subject matter, can dramatically increase their GPA, and may also be better prepared to succeed in college. If honors courses are offered at a high school, many colleges expect serious candidates to enroll in honors courses. The strong academic preparation provided by honors courses in high school will generally increase a student's level of success in college. Since honors classes are more difficult than traditional courses, grades in these courses are weighted differently and can strengthen a student's GPA. With the standard four-point grading scale, A = 4 grade points, B = 3 grade points, C = 2 grade points, D = 1 grade point, and F = 0. Honors classes are given one extra grade point, so A = 5, B = 4, C = 3. When honors courses are averaged with your other high school grades your overall GPA can be higher than 4.0. Honors courses will meet together with the traditional college preparatory class. Some honors classes have work that is assigned to be done over the summer:

Summer Assignments:

11 Grade Honors English – one of the honors quarterly projects due first day of school

Advanced Math Request Sheet

Calvary Baptist School

Student's Name: _____
(Last) (First)

Grade: _____
(2018/2019)

Any student wishing to take Honors or AP math courses must complete this form and submit with course selection sheet. Students will only be permitted to take Honor or AP math courses if this form has all required signatures. This form is only required for the math courses listed below.

1. I would like to take the following class(es):

_____ Honors Pre-Calculus (Mrs. Ngalande)

_____ AP Calculus AB (Mrs. Ngalande)

_____ AP Statistics (Mrs. Ngalande)

_____ AP Calculus BC (guided self-study) (Mrs. Ngalande)

2. Teacher Signature: _____

3. Parent Signature: _____

4. Administration Signature: _____

Please submit with course selection sheet by **Wednesday, June 6th.**
